How do I change my password in the Rooting Instructions forum? If you are not able to log in to the Rooting Instructions forum by using the email address linked to your account or you have forgotten your password, you can reset it by going to the account dashboard page and following the instructions listed below. If you were registered with the forum at its former address, you will need

### What's New in the Adobe Photoshop 2021 (Version 22.2)?

Q: Crystal Report to display a calculated field I am developing an application where i need to display a calculation on a textbox which is called "Total Amount" Here is what i have tried: Say, the Total Amount is 50 ReportDocument report = new ReportDocument(); TotalAmount = report.ComputeIfAbsent("TotalAmount", (TotalAmount) => TotalAmount = (double)TotalAmount \* 100); I know it is wrong and will not compile, but is there any way to get the result? Thank you A: Caveat; When I have needed a calculated field I have been using subreports Dim rSubreport as New Subreport rSubreport.SubreportProcessing = SubreportProcessingEnum.NoSubreport rSubreport.SubreportExpression = "{MyExpression}" rMainReport.Subreports.Add(rSubreport) The advantage is that the Crystal Report SQL can be different from each subreport. The disadvantage is the overhead of creating the subreport. So the benefits of a calculated field depend on the logic you have to use the value. Master of World History The Master of World History or M. W. H. is a master's degree in world history awarded by the University of Ljubljana in Slovenia since 1992. The program includes a core of 20 credits, and additional 20 credits for the dissertation. The program includes a supervised research project and honors thesis. Students in the program study the history of 20 countries in the world and are expected to promote world knowledge and global understanding through research, teaching, public speaking, publishing, and participating in professional networks. See also List of history departments in universities List of university programs in history References Category:History education Category:Education in Slovenia Category:Educational institutions established in 1992 Category:1992 establishments in Slovenia#!/usr/bin/env bash # for ansible-segalov, this is the version that is used to create symlinks in the K8s # Get local state from K3s, if present (will get a script tag for this on first run
